

Intelligent Assignment Evaluation System (IAES):

(Automated Grading and Plagiarism Detection)

ABSTRACT:

IAES is an innovative web-based platform designed to streamline assignment evaluation, ensuring efficiency, accuracy, and fairness. Leveraging cutting-edge machine learning and natural language processing techniques, IAES automatically extracts text from assignments, detects plagiarism, and grades submissions based on predefined criteria. This system aims to alleviate educators' workload, reduce grading bias, and provide constructive feedback to students. IAES integrates seamlessly with Learning Management Systems, ensuring scalability and security.

Keywords:

Automated Grading, Plagiarism Detection, Machine Learning, Natural Language Processing, Assignment Evaluation, Educational Technology.

Signature of the guide:

Name: Dr. K .V Sambasiva Rao

Project Batch number-1

Branch & Section: CSE- B

Students Name & RollNo:

N.Lakshmi Prasanna(21KN1A05C1)

J. Jaswanya Balaram (21KN1A0567)

K. Naveen(21KN1A0585)

M. Kanaka Supriya(21KN1A05A3)
